The Masters Are Coming in Less Than a Year

H: I felt a stirring. Does someone wish to address me at this time?

[Pause]

Unknown: Whenever your doorbell rings, you answer it. We knock on your door, and you let us in. We have great news.

H: Welcome, and the news is also welcome.

Unknown: A certain strategy has now been worked out that will involve a great many people. It is one that calls them to declare themselves. Those who will declare themselves will be greeted by Masters.

In the very near future those Masters will show themselves openly, will walk among those who have declared themselves. At that time the teaching will begin. Each one who has declared himself or herself will become aware of which talents will be called upon, in order to serve his fellow human being.

H: I know that you are Methusaleh, because you taught us about talents.

Methusaleh: Yes indeed. Those of us who know which light worker we will connect with, are overjoyed. I will tell you more when the time nears. It will be in less than a year.

H: Thank you, dear Master.
